ASIN AQUA NET+

COMPACT DOSING DEVICE FOR AUTOMATIC POOL WATER TREATMENT WITH THREE DESINFECTION OPTION AND INTERNET CONNECTIVITY.

- Regular dosing: Standard disinfection through direct dosing.
- Electrolyzer control: Operates an external electrolyzer for disinfection.
- Hybrid mode: Combines dosing with electrolyzer control for precise chlorine level.

POOL WATER TREATMENT

CHLOR PURE

Chlorine disinfection based on sodium hypochlorite. Great for disinfection in all types of pools.

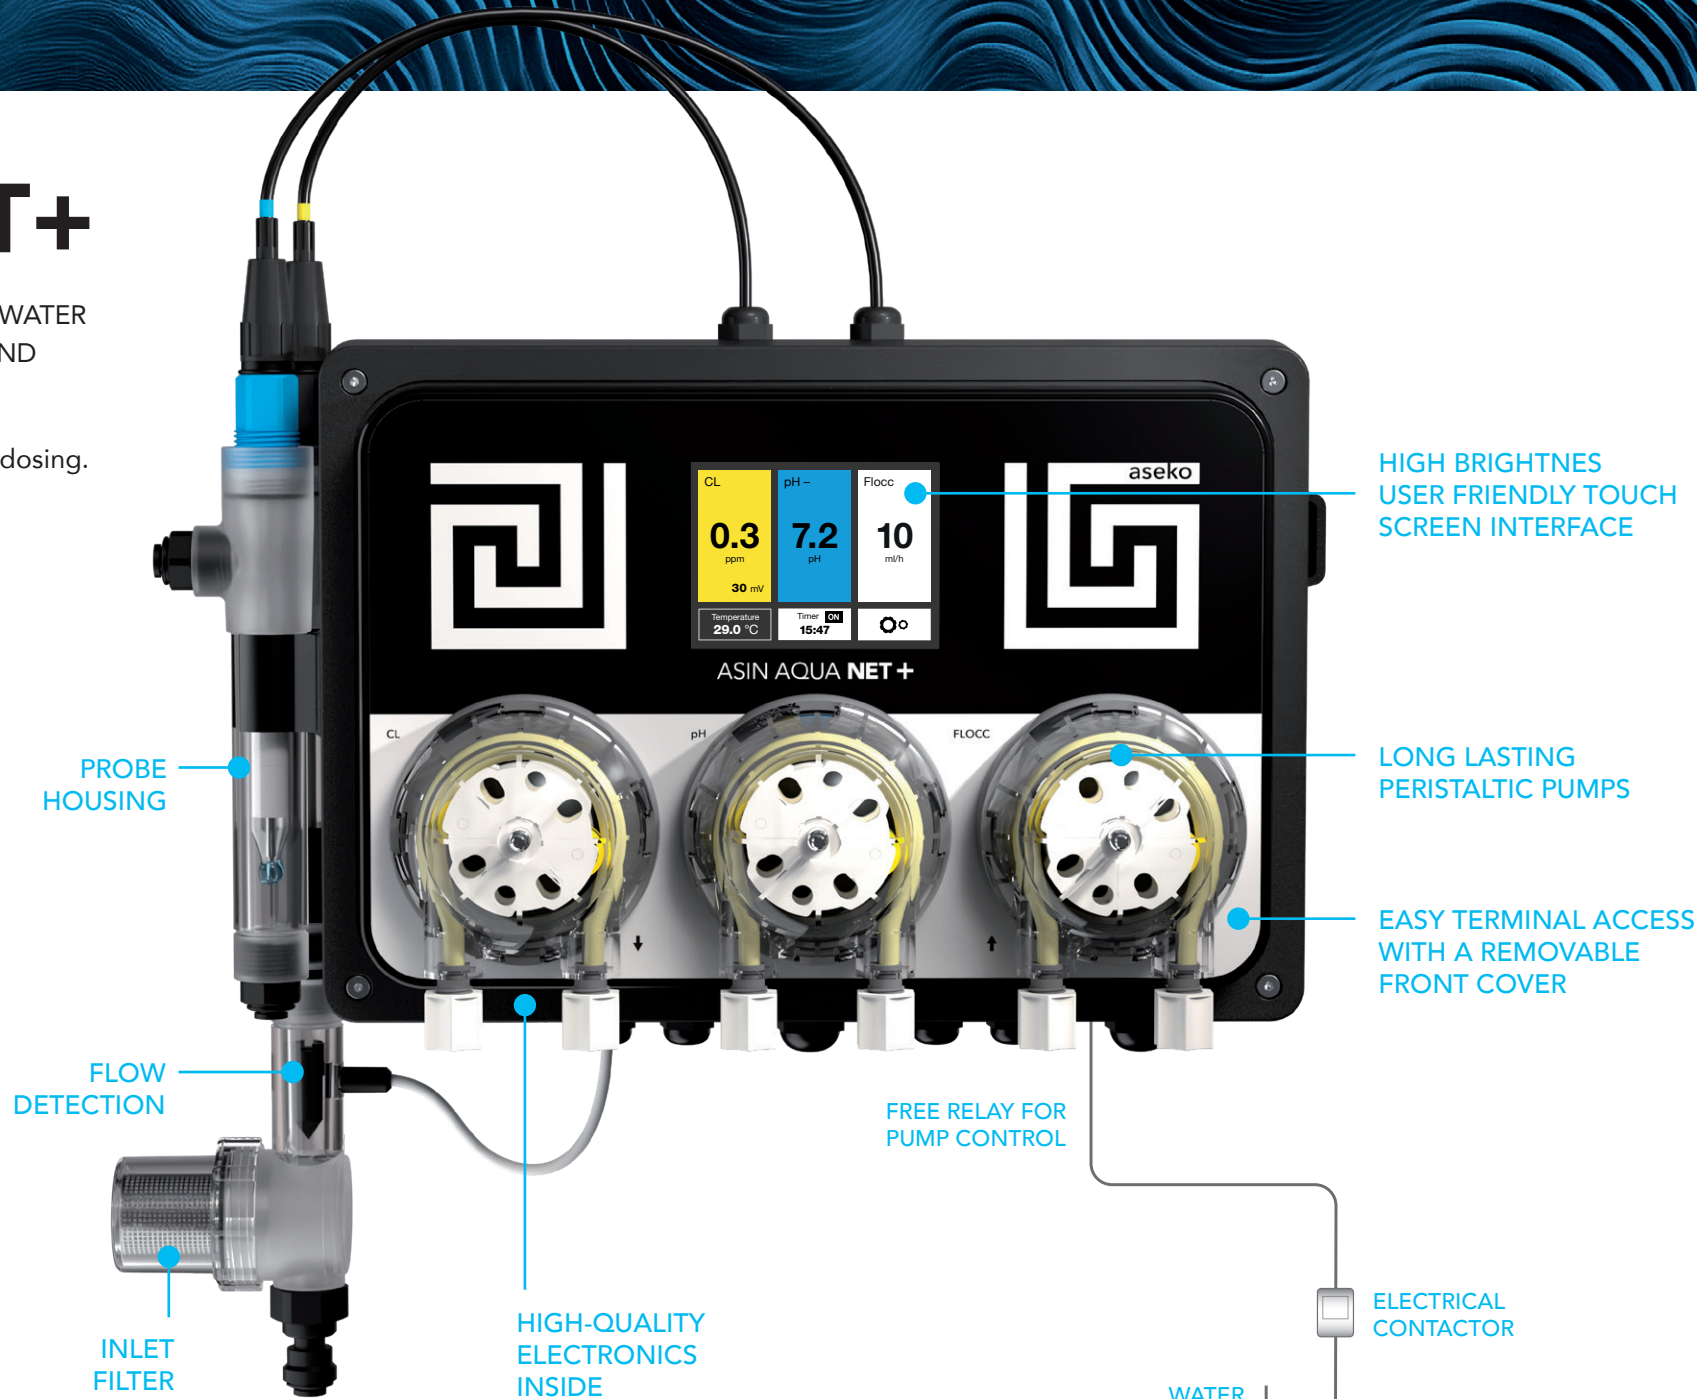

pH MINUS

Liquid reducing the pH, based on anorganic acid. Suitable for pH reduction in all types of pools.

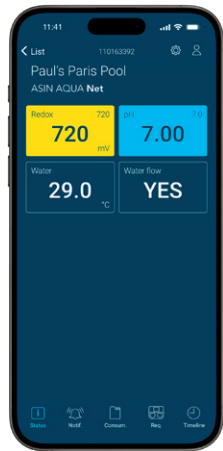

FLOC+C

FLOC+C is highly effective blend of polymeric flocculants and coagulants to clarify pool water.

LAN CONNECTOR FOR ACCES TO:
