INSTALLATION PARTS REVOLUTION

The new dimension of stainless steel installation parts

REVOLUTION

THE NEW DIMENSION OF STAINLESS STEEL BUILT-IN PARTS. ALL ADVANTAGES AND NEWS AT A GLANCE.

- » New refined, modern stainless steel look
- » Modular design:
Light built-in part (niche built-in part + adapter),
Piezo user interface
(light cover + 3-fold piezo adapter + piezo elements)
- » 1 model (basic installation part) fits all swimming
pool types with matching adapters, covers and
and seals:
 - » Exposed concrete
 - » Tiled / painted concrete / natural stone lining
 - » Swimming pool liner
 - » System pool
 - » Stainless steel pools
- » Flat cover, only 3 mm standing out
- » Industrial, functional design – Torx screws
finished in REVOLUTION look as a design element
- » Variable connection options
2" external thread / 1 1/2" internal thread
- » Integrated sacrificial anode = additional corrosion
protection
- » Suitable for all structural thicknesses
and hair trap-proof according to DIN EN 13451-3

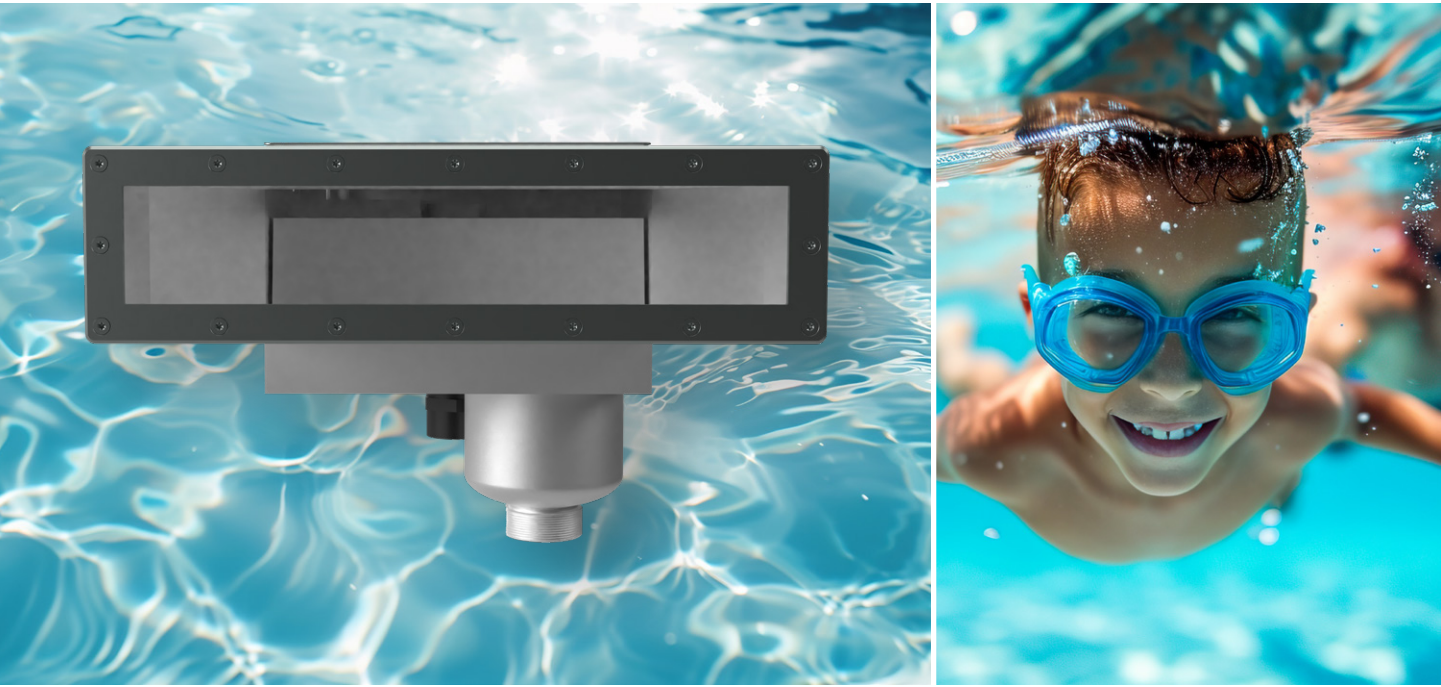

Style meets function –
our industrial design
with refined Torx screws
sets new standards.

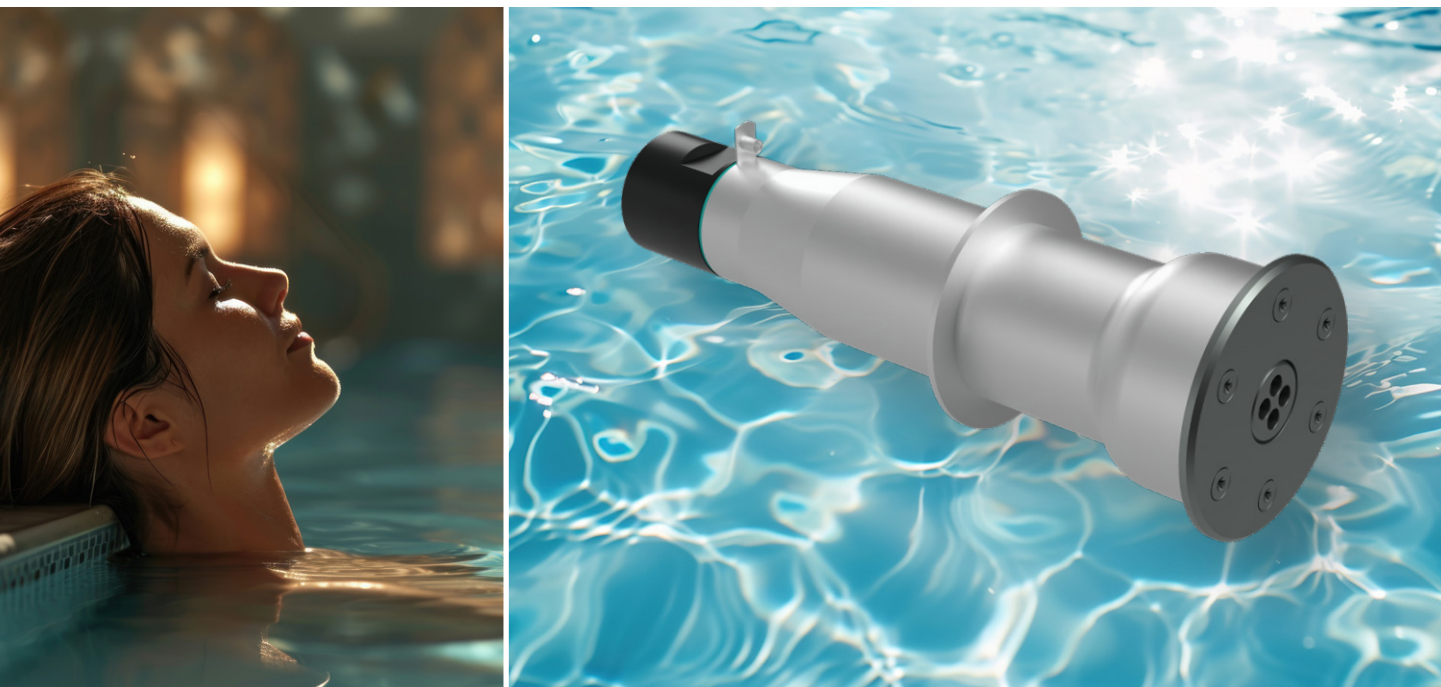

**Experience timeless elegance
and outstanding durability**
with our new, ennobled stainless
steel look – perfect for every
swimming pool.
