Engineering and  
manufacturing the most  
reliable pool filters since 1970

# Why should you choose CALPLAS® ?

## EXPERTS SINCE 1970

- CALPLAS® has been selling the most reliable filters worldwide for nearly 50 years.
- Every single filter undergoes quality control and pressure tests before delivery.
- Our engineers use strict calculation for each filter diameter and design.

## GREAT ATTENTION TO DETAILS

- Moulded-in threaded and flanged connections for complete safety.
- Transparent top lids or elliptical top access, additional sight glass and lateral manhole for easy maintenance.
- Closed legs integrated in filter structure for best stability, durability and performance.
- Beautiful finish using UV resistant external gel coat.

## BUILT TO LAST FOREVER

- Glass Reinforced Polyester (GRP) for total waterproofness and corrosion resistance.
- Steel reinforcement for all points where filter is under additional stress.
- Extra lining of all equipments with resin for optimal resistance against heat and chemicals.
- Unique fiber orientation to handle stresses and assure a long time.

## BEST EFFICIENCY

- Special top diffusers, nozzle plates, and internal piping designed to offer optimal water flow distribution inside the filter for best filtration and backwash.
- Several media bed heights available: The higher, the better the filtration will be.

**OUR FILTERS ARE AS STRONG AS STEEL  
WITH THE CORROSION RESISTANCE OF POLYESTER.**

CALPLAS

PROUD TO BE THE BEST

[WWW.CALPLAS.COM](http://WWW.CALPLAS.COM)

CALPLAS® manufactures filters for industrial applications and for the swimming pool industry (private and public pools). Founded in 1970 in San Sebastian, CALPLAS® has acquired over the years a solid experience and unique know-how. Thanks to their superior sturdiness and higher efficiency compared to market standards, CALPLAS® products quickly became successful worldwide. The quality and the reliability of their filters are now recognised by all in both the swimming pool and industrial sectors.
